Reader's Advisory

A new online archival collection for the [Miller House and Garden](#), one of the nation's most highly regarded mid-century Modernist residences has just been released. The Miller House was designed by Eero Saarinen, with interiors by Alexander Girard and landscape design by Daniel Urban Kiley. This digital collection spans 50 years and contains 17,699 downloadable images, including architectural drawings, material samples, photographs and administrative documents related to the history of the property. The 3-year digitization project was made possible by a \$190,000 grant from the National Endowment for the Humanities awarded to the Museum in May 2012.
