**Reader’s Advisory**

In a major and controversial decision the Supreme Court recently upheld the law that permits restoration of copyright protection to works formerly in the public domain. *Golan v. Holder* challenged a 1994 law enacted to align US copyright protection with international copyright regulations. The law applied chiefly to works first published outside of the US from 1923 to 1989 that had earlier not been protected under American law. The case was brought forward by orchestra conductors, instructors, and film archivists who rely extensively on the free use of musical scores, books, films, and art works that had previously been outside of copyright protection.
