### Reader's Advisory:

Getty Publications has launched a Virtual Library, providing free online access to more than 250 of its backlist titles. The books are available to read online or download as PDFs. Last year the Getty made freely available thousands of images of works in its collections that were in the public domain or to which they held all the rights. The online publications, the earliest of which dates from 1966, span the Getty's rich publishing history, and include collection catalogues that highlight masterpieces from Getty collections, translations of groundbreaking texts on the visual arts, essential works of art historical research, exhibition catalogues, journals, and publications that serve as key resources in the conservation of the world's cultural heritage. The Virtual Library includes titles published by the J. Paul Getty Museum, the Getty Conservation Institute, and the Getty Research Institute. Titles will be added to the Virtual Library on an ongoing basis. The titles are fully searchable and most of them are accompanied by a description, a table of contents, and author biographies. Links are provided to help locate a print edition in a local library through WorldCat and to purchase books that are still available for sale.
