

## **Booklist and Reader's Advisory, October 2012**

Recently published architectural books and related works, selected by **Barbara Opar**, Architecture Librarian, Syracuse University Library. NOTE: Links to purchasing information taken from *Amazon.com* or *Michael Shamansky Bookseller(artbooks.com)*

### **Reader's Advisory**

An important event for the scholarly community is Open Access Week. This year, the dates are October 22-26. OA Week is an opportunity for the academic and research community to continue to learn about the potential benefits of Open Access — the principle that all research should be freely accessible online, immediately after publication — and to help inspire wider participation in helping to make Open Access a new norm in scholarship and research.

The now-annual event has been expanded from a single day to a week to accommodate widespread global interest in the movement toward open, public access to scholarly research results. For more information, see <http://www.openaccessweek.org/>
