

ABOUT SAH CELEBRATES

SAH Celebrates, the Society of Architectural Historians' annual fundraising event held in Chicago, recognizes the achievements of a diverse community of experts who shape the built environment and passionately advocate on behalf of historic places. At the center of this celebration is the Charnley-Persky House (1891-1892), a National Historic Landmark and a Chicago Landmark designed by Louis Sullivan with assistance from Frank Lloyd Wright, that serves as SAH headquarters. SAH Celebrates highlights the importance of fostering a supportive community whose efforts ensure the stewardship of architectural gems like the Charnley-Persky House.

ABOUT SAH

The Society of Architectural Historians is a nonprofit membership organization that promotes the study, interpretation and conservation of architecture, design, landscapes and urbanism worldwide. Founded in 1940, SAH serves a network of local, national and international institutions and individuals who, by profession or interest, focus on the history of the built environment and its role in shaping contemporary life. SAH promotes meaningful public engagement with the history of the built environment through advocacy efforts, print and online publications, and local, national and international programs.
